installing and configuring git

- to check if you have git go to the terminal

```
joses-MacBook-Pro:short-lnk mendoza$ git --version
```

- **to download** it go to <https://git-scm.com/>
- we next configure our name

```
joses-MacBook-Pro:short-lnk mendoza$ git config --global user.name "Jose Mendoza"
```

- **the** next thing is the email

```
joses-MacBook-Pro:short-lnk mendoza$ git config --global user.email "jose@jjmendoza.com"
```

- **to** check if everything was saved properly

```
joses-MacBook-Pro:short-lnk mendoza$ git config --list
```

- **or** you can use..

```
joses-MacBook-Pro:short-lnk mendoza$ git config user.name  
Jose Mendoza
```

- or your email...

```
joses-MacBook-Pro:short-lnk mendoza$ git config user.email  
jose@jjmendoza.com
```
